WE GIVE YOU

- Direction
- Experience
- Leadership

AN INVITATION TO
JOIN A PROGRESSIVE
**Canadian
Trade Union**

HIGH IDEALS— WITH REALISTIC GOALS

The Christian Labour Association of Canada is an independent, all-Canadian labour union representing tens of thousands of Canadian workers. CLAC and its affiliated locals proudly represent workers in just about every sector: construction, health and social services, transportation, manufacturing, retail and service, mining, education, and emergency services.

CLAC is based on Christian social principles—

respect, integrity, democracy, social justice, and workplace partnership—but anyone who supports its approach is welcome to join.

Workers are entitled to a fair wage. They deserve to be treated with dignity and without discrimination. Ideally, labour and management should work as partners, not enemies. And day-to-day work should be satisfying and meaningful for workers.

What can you expect under a CLAC contract?

FAIRNESS

- competitive wages
- excellent health and retirement benefits
- job security

INTEGRITY

- union accountability
- professional bargaining and research
- secret-ballot voting

RESPECT

- input into decision making
- union-management committees
- safety as a priority

REPRESENTATION

- steward training and support
- education and defense funds
- regular contact with highly trained representatives

CLAC is committed to improving all working conditions for its members. The union has an excellent track record of providing quality representation. And CLAC and its staff are ready to help you and your co-workers.
